ADDITIONAL INFORMATION:

Skin is used as a process ingredient only and not processed for whole product distribution.

BioDfactor (tm) has been developed as a liquid wound covering product for use in vivo to fill soft tissue defects or bone voids.

BioDfactor (tm) can be applied directly to the surgical site or mixed with the patients own blood to provide an easy to use wound covering offering the unique biologic structure of amniotic tissue.

The BioDfence (tm) patch has been developed as an in vivo wound covering to provide a physical barrier to protect tendons and nerves at the surgical site. It is sterile, easy to use, and available for a broad range of clinical applications.

Proprietary Name(s):
